- SQL

Softskill

- Presentation skill
- Communication Skill
- TEAM PLAYER
- Problem - Solving

Motivated fourth-year student and eager fresher with a strong foundation in Information Science, blending hands-on internship experience and relevant skills. Enthusiastic about contributing to innovative projects, I bring adaptability, quick learning, and a passion for web-development , ensuring success in dynamic, challenging environments.

Projects

Travelling guide website

1. Developed a travel guide website with city tour booking functionality..
2. Incorporated user feedback and multitasking features..
3. Demonstrated project management skills..
4. Applied web development expertise for seamless user experience..

Online learning platform

1. Designed and developed a user-friendly e-learning platform.
2. Implemented secure login/signup functionality.
3. Enabled seamless course purchasing for users.
4. Applied front-end skills to enhance overall user experience.
5. Demonstrated proficiency in web development and design.

image searching using API

1. Designed a responsive image search website.
2. Implemented Unsplash.com API integration for dynamic content.
3. Showcased front-end development skills.
4. Enhanced user experience with an intuitive interface.
5. Enabled seamless image exploration for users.

Internship

Aug/2023 - Sep/2023

I completed a one-month online internship at CompSoft Technologies, where I successfully developed a front-end project—an e-learning website. This experience honed my skills in web development and provided practical insights into the field.

Achivments

Secured 1st rank in idea presentation event organised by ISE branch of Acharya institute of technology.
